## Mines and Mining Stocks

## **BEAVER COUNTY'S NEW BONANZA**

Revenue Mining Company Has One of the Biggest Propositions Imaginable.

NOT FAR FROM NEWHOUSE

OWNED BY SALT LAKE OPER-ATORS EXCLUSIVELY.

For practically four and one-half years the Revenue Mining company has been noiselessly developing and acquiring ground in Beaver county that little has been learned about its accomplishments. The company has patented over thirty claims, and owns seventy more on which patent has not yet been secured. This means that it has over 2,000 acres of mining ground in one solid block. Not only that, but it has thousands of tons of ore blocked out in workings which aggregate more out in workings which aggregate more than 6,000 feet, and has thousands of tons more in the bins and on the dumps. The proposition is owned almost exclusively in Salt Lake. L. S. Hills and other prominent capitalists are prominently identified with the enterprise, which is being managed by L. G. Bur-

Henry Schepers, who has been superintendent in charge of the work for nearly all the time, and who has just resigned in order to come out of the wilderness and make Salt Lake his home, talked about what had been accomplished yesterday afternoon. The mines are located in the Pine Grove district, bordering the Nevada state line, and about eighteen miles south of west from Newhouse, in Beaver county, north of the Moon iron mines. On the property is a big stream of water, millions of feet of growing timber and millions of cords of wood suitable for steam-making purpose and domestic fuel. The company operates its own sawmill and has erected many buildings, including two boarding houses, several dwellings, bunk houses, blacksmith shops, carpenter shops, etc., as well as a mill building which is now practically ready for the installation of

Four tunnels on the property are in over 800 feet each and a network of true fissure veins that cut through the quartzite, porphyry and into the lime. Running at right angles are several great contacts between the formations mentioned and great bodies of ore have already been opened. Samples from two of the great bins that are now filled with milling rock gave assay returns as follows: No. 1 showed 4.5 per cent lead, 38.20 ounces silver and \$5.20 in gold, while the other ran 26.5 per cent lead, 90 ounces silver and \$10.50 in gold This ore comes from what is known as the South Side ledge, where large quantities of ore that carries 43.5 per cent lead, 196 ounces silver and \$99.20 in gold is ready for stoping. Another shoot in the same vein is now being stoped and the ore runs 15.3 per cent lead, 41.4 ounces silver and \$6 in gold This ore will go to the mill dumps an

In the Clift ledge 140 feet of ore has been opened from a 200-foot shaf which carries several feet of ore that averages 41 per cent lead, 186 ounces silver and \$17.50 in gold per ton, while with it is a mass of milling ore valued at about \$45 per ton. The company i getting ready to do things in that re

### DEEP WORK IS STOPPED.

Lower Mammoth Suspends Operations on 1,700-Foot Level.

Manager John Dern announced yester-day that work on the 1,700-foot level of the Lower Mammoth had been suspended day that work on the 1,700-foot level of the Lower Mammoth had been suspended pending the sinking of the vertical winze from the 1,500 to the 1,700-foot level of the property and the running of a 100-foot crosscut to the ledge on the lower level. A station is now being cut on the 1,500, and the work of sinking will begin within a few days. A powerful hoist will be installed at the mouth of this winze on the 1,200 level, and a cake will be operated in it when the 1,700 level is reached. After connections are made on the 1,700. It is very probable that the winze will be continued on down to a greater depth, unless it is decided in the meantime that the main shaft will be sent to the deep. In any event, it is considered that the thing to do now is to get the vertical winze down as quickly as possible in order that mining can be carried on more economically and at the same time with much greater speed. Developments on the deepest level demand that such action be taken and, as it was imperative that it be done, sooner or later, Manager Dern has decided to get at it now. When this winze is finished and the hoisting equipment is in place, cars can be loaded on the 1,700 and sent direct to the surface without changing the load. When a car is lifted to the 1,200 through the winze it will be run to the shaft and sent up on the cage operating there. As there is something over 300 feet of work to do. the cage operating there. As there is something over 300 feet of work to do, mining on the 1,700 will be delayed for about three months.

### MINING STOCK EXCHANGE.

Lower Mammoth Drops Several

Points-Other Stocks Strong. Lower Mammoth took a tumble of several cents yesterday as a result, most likely, of the management's tatement that no further work would be done on the 1.700-foot level until the vertical winze had been dropped down from the 1.500 to the 1.700-foot level and connections made with the recently developed ore bodies. One lot sold, buyer sixty days, in the forenoon, at 74c. In the afternoon it was started at 72c. and sold down to 67c. the final transfer being 2c higher than

STOCKS AND BONDS BOUGHT AND SOLD.

that. Otherwise the market was strong all through. Ajax brought 26c, Cairsa 371½ to 39c, with the close at the former. Yankee touched 40c, Little Chief 16c, and Eagle & Blue Bell \$4. Columbus Consolidated, one of the unlisted stocks, was taken in hand by the bears, and sold at \$6.70 and \$6.75 for the purpose, it was understood, of compelling holders of buyers options to trot out the stock. Daly-Judge. Ontario, Nevada Hills and a number of the other stocks behaved splendidly and there was nothing to indicate other than that the market will be a good one again today.

Sells Two Carloads of Ore That Is Worth Nearly \$30,000.

The Nevada Hills company yesterday marketed two carloads of ore and, while the management was unwilling to release particulars on smelter re-

to release particulars on smelter redelay of more than twenty-four hours.

During the two regular and open board calls a total of 49,663 shares of stock, with a selling value of \$34,647.37, changed hands, the list of final quotations and record of sales made being as follows:

| Forenoon. | Afternoon. | many days somewhere in transit. The control assays on that car showed 7.86 ounces in gold and 948.7 ounces silver many days somewhere in transit. The control assays on that car showed 7.86 ounces in gold and 948.7 ounces silver per ton, or a valuation of considerably better than \$800 a tons, gross. The second carload, the one shipped on Sept. 19, assayed 3.56 ounces gold and 303.8 ounces silver, or approximately \$210 a tons. As the company has been in the

Treasurer W. V. Rice stated yester-day that the company's experience in getting the high-grade car through was enough to last for a long time, and that hereafter there would be no shipments made in that way. It was probable that the extremely rich ore would continue to be sacked separately, and if it was it would be sent through with the ordinary grades in such a manner that Treasurer W. V. Rice stated yesterthere would be nothing to distinguish it from the lower-grade material. Such precautions, it was considered, would be necessary to protect the company from the theft or possible changing of sacks after the ore had left the mine.

These two carloads of ore from the Nevada Hills precautions and the coast seems clear for three days longer out there. Within a week, it is claimed, it will be cars that are now employed in moving the best crop, both in Utah and in Idaho, and when that is possible a day or two will see a great change for the better, as it relates to the delivery of fuel at the mines, mills and smelters.

Nevada Hills property have provided enough money to pay a \$25,000 dividend Sinking In Recently Discovered and then leave a good surplus. It is evident that the mines of that district are going to produce something better than hot air if the Nevada Hills is to be taken as an example of what others may yet do.

Utah Stocks in Boston.

Following is the list of Utah and other stocks traded in on the Boston exchange yesterday showing the range of prices and the number of shares sold. Accompanying the report, which is furnished by James A. Pollock & Co., is the market letter of Paine, Weber & Co., as follows:

Boston, Oct. 2.—Boston had the greatest activity today of several years, under the leadership of North Butte. Copper Range and Butte Coalition. Higher prices were recorded all around the room. The buying of North Butte was excellent and the stock is talked for 110 this week. It should be bought on reactions. Some one is be bought on reactions. Some one is picking up Copper Range and good news is expected on the stock before long. Greene Consolidated is being well bought around this level. Calumet & Hecla looks cheap around these prices and will sell at 900 before the first of the year. Old Dominion is being let alone at present, but can safely be bought on any reaction

REQUA GOES TO NEW YORK.

Is Working for Mails to Go Over Nevada Northern.

General Manager M. L. Requa of the Nevada Consolidated company's Ely properties and the Nevada Northern railroad, accompanied by Karl Eilers of the executive committee of the American Smelting & Refining company, left for New York yesterday afternoon. Mr. Eilers goes with his family to make his headquarters in New York, and Mr. Requa has gone to confer with the chief officials of his companies. On the way from Ely Sunday night, Mr. Requa told The Herald that he was doing all in his power to have the mails carried over the Nevada Northern into Ely, and he had hopes of being successful soon. As it is now, all mall for the camp goes in and out by way of Eureka, which necessitates a ninety-mile stage haul and a resultant delay of more than twenty-four hours.

19, assayed 3.56 ounces gold and 303.8 ounces silver, or approximately \$210 a ton. As the company has been in the habit of loading better than thirty tons to a car, it is seen that the above estimate of the two carloads is not far from the amount stated in the beginning of this item.

The control of the furnaces would have to be closed down, and that meant that the mine would have to suggest that the closed down, and that meant that the mine would have to be closed down, and that meant that the mine would have to suggest the control of the furnaces would have to be closed down, and that meant that the mine would have to suggest the control of the furnaces would have to be closed down, and that meant that the mine would have to suspend operations,

Shoot Is Now In Progress. The first news concerning Montgomery Mountain conditions that has come from Bullfrog in several weeks is found in the market letter of Taylor & Griffiths, as

market letter of Taylor & Griffiths, as follows:

"The company has started to sink a winze ninety feet from the mouth of the main tunnel. This winze is being sunk on the ledge that was out about a year ago, the former superintendent attaching no importance to the ore that came into the tunnel. About three weeks ago, Superintendent Kilker started a drife on this ledge, with most gratifying results, opening up with very few feet of work a body of ore entirely satisfactory to the company, both as to quantity and quality. The winze is well under way, and has reached a depth of about ten feet. A station has been cut and a windlass put on. The ledge is twelve feet wide. There is four and a half feet of high-grade milling ore, and a foot and a half next the hanging well running into shipping values, and looking better with depth. The breast of the main tunnel is now in 485 feet, and according to surface measurements, the Del Monte vein snould be cut within the next thirty feet. There seems to be no question but that the Montgoment of machinery which has been ordered for this property, and which is now erry Mountain Mining company has finally come into its own, and by the time the railroad gets in here with the large shipment of machinery which has been ordered for this property, and which is now erroute, the exact places will have been selected for the location of this machinery when real mining will be started on a very extensive scale."

John A. Kirby, the well known mining operator, returned from his two months was again to live where everything is measured by dollars, rather than eggs.

John A. Kirby, the well known mining operator, returned from his two months vacation trip to the haunts of his early days and the old homestead at Providence, R. L., yesterday morning. "I have not attempted to content himself with a cit trading gets for sugar" life, but soon tired to content himself with a cold out of himself Month with a wist again to live where everything is measured by dollars, rather than eggs.

### ARTICLES FILED.

Ely Consolidated Copper Company Now Ready to Do Business.

Articles of incorporation of the Ely Consolidated Copper company were filed with the county clerk yesterday. The incorporators of the company are Walter G. Filer, who is named as president; W. F. Snyder, vice-president; Gideon Snyder, secretary and treasurer, and these, with Nichols Treweek and Olaus Jeldness, form the officers and directorate.

The company is capitalized in the sum of \$10,000,000, and the shares of the company's stock are valued at \$10. The term of the company's stock are valued at \$10. The term of the incorporation is for 100 years, and Salt Lake is named as the principal place of business. The annual meetings of the officers, directors and stockholders are to be held at the company offices in Salt Lake on the first Tuesday in October of

each year.

Walter G. Filer transfers the "Filer Fraction," an unpatented lode claim in Rebinson mining district, White Pine county, Nevada, to the company. Snyder, Clarence McCornick and Filer transder, Clarence McCornick and Filer transfer to the company the following lode claims in White Pine county, Nevada:
The "American," "Porcupine," "Kickapoo," "Oasis," "Zack," "Brilliant,"
"Northern" and "Rising Sun," which are valued by the incorporators at the full amount for which the company is incorporated, \$10,000,000.

The company's incorporation is for the

porated, \$10,000,000.

The company's incorporation is for the purpose of permitting it to explore and develop mining properties in any part of the world; to mine, mill and concentrate ores; to manufacture, buy, sell, exchange and transfer all ores and metals, including gold, silver, copper, lead, tin, zinc, brass, iron, steel and all other ores, metals an dminerals, and all products and byproducts from these metals and minerals and their ores. The company can buy, sell and lease mineral claims and mines and conduct all classes of business that pertain to the mining business. 1.07½ 1.50 .56 .63

Mining Notes.

Will J. Grey, superintendent of the Scettish Chief, was down from the mine yesterday with a lot of ore samples taken from the workings both above and below the 300-foot level. He states that the combination lock on the treasure vaults of the property have been broken and the

### DON'T LET YOUR MONEY LOAF.

If you have much or little money, better have it earning something. Remember, all fortunes had their foundation laid in saving, and money makes money only when it is

put to work.

It isn't thrifty to let your money lie idle, particularly when a strong financial institution would pay you four per cent per annum interest on it, compounded semi-annually. We are doing this for hundreds.

UTAH SAVINGS & TRUST CO., NO. 160 MAIN STREET, SALT LAKE CITY.

peculiarities of the formation have been solved. He promises that the property will make a fine showing as a producer from now on.

J. E. Beveridge of the Flagstaff Consclidated is down from camp for a day looking after company affairs here. He expects to return this evening. Eight cars of ore from Tintic, five from California, three from Idaho and two from Good Springs, were released from the Taylor & Brunton sampler yesterday

Three cars of ore from Alta, three from Stockton, two from Nevada, one from Bingham and one from Idaho were reported at the Pioneer sampler yesterday morning.

The foreign visible supply of copper on Oct. 1, according to a message from Boston over the Pollock wires, was 12,480 tons, an increase of 217 tons within the last two weeks.

Cumberland-Ely stock was advanced a full \$1 a share in Boston yesterday. It looks as though some of the several hundred visitors to the mines of the Elycamp on Sunday last was responsible for the gain in price. The Herald's mining departemnt acknowledges the receipt of a large fine map of the Wonder mining district, with the compliments of the compiler, Harry Rager, a well known mining engineer and

deputy mineral surveyor of the big cam north of Fairview. A. D. Moffat, superintendent of the Cactus bonanza at Newhouse, in Beaver county, came up from the south yesterday morning. He states that everything is running smoothly at the mines and great milling plant, and that a better record than ever is being maintained. He will be in the city for a day or two only.

H. M. Swan, formerly a mill man at the H. M. Swan, formerly a mill man at the Ontario in Park City, and later for several years with the Granite Mountain company, is back in Utah again. A year or so ago Mr. Swan sold his home in Montana and went back to Missouri. He bought a farm out of Kansas City and tried to content himself with a "trading eggs for sugar" life, but soon tired of it. He sold out, and with his wife has come west again to live where everything is measured by dollars, rather than eggs.

# Where Men Get Cured

W. A. COOK, M.D. Founder of the Cook Medical Co. tution, the COOK MEDICAL CO., is a permanent fixture of Salt Lake City. It has stood the test of time and will continue to stand as a Mecca of hope for afflicted men hereabouts. From time to time it has been remodeled in all its departments which are thoroughly equipped with every scientific instrument, apparatus and device essential to our modern methods of specialty practice. Its financial responsibility is as solid as gold, while the treatment it administers, as legions of its cured patients know, is skillful, scientific and successful. We invite all afflicted men who really desire a cure to inspect our offices, and to honestly investigate us. A private consultation, a careful personal examination, together with a scientific and honest opinion of your case, will cost you nothing; and a perfect cure, if you decide to take it, will not be more than you will be willing to pay for the benefits conferred.

We treat and cure by the latest and best methods known to medical science, VARICOCELE, STRICTURE, SPECIFIC BLOOD POISON, NERVO-VITAL DEBILITY, BLADDER and K!DNEY troubles, and all associate diseases and reflex complications.

CONSULTATION FREE, CONFIDENTIAL AND INVITED. A personal, thorough and searching examination is required, though if inconvenient to call, write me a full description of your trouble. Office hours, 9 a. m. to 8 p. m., except Sundays, from 9 to 12:30. Address or call
